In this game, your goal is to build your base and earn a ton of gold, gems and oil, build a huge fleet of ships, and use them to attack computer-controlled Scylla fleets, other players and more. Keep reading some tips, cheats, tips, strategies and tricks for The Sea Game: Mega Carrier! At the beginning of the game, your best bet is to use the missions to figure out what to build next, but even if they give you all kinds of rewards, you don't need to cash it right away, especially if you're worried about having your stuff stolen as soon as your shield passes. If you do not claim a reward, then other players will not be able to steal the rewards. Then save the rewards until you need them to build, research, train, or build.
